## **What we do:**

The goal of Barlow Little Palms Preschool is to assist your child in his or her education, emotional, physical, social and spiritual growth. Through a creative, loving and nurturing environment, we help your child develop the self-confidence and self-esteem necessary to make their learning experiences positive, successful and fun! We encourage each child's natural creativity and love of learning.

Children learn through play, therefore, we offer a wide range of developmentally appropriate activities each day for children from 2-5 years old. Their activities include art, crafts, science and nature exploration, music, emergent literacy and math, problem solving skills and learning the skills needed for social and emotional growth. These activities are presented throughout the day through free play in centers and outside, in small groups, during circle time and on an individual basis.
